The 'TO' section shows a summary for 'Cultivar: Combination Planter (PVG) Special #2' and 'Container: 19" COMBO PLANTER'. It displays 'Scheduled Cont To Start: 275', 'Cont Started THIS SESSION: 0', and 'Scheduled Remaining: 275'. Below this is a table for 'To' containers with columns for 'ContStarted', 'Container Desc', and 'Cultivar'. The table contains one row: '0 | 19" COMBO PLANTER | Combination Planter (PVG) Special #2' with 'TrayIDNo: 1559855', 'ContStart: 0', 'ContOnBench: 0', 'Bench: No Bench', and 'VirtualE: No VBE'. At the bottom, there is a 'Scan' input field and buttons for 'Cancel', '<back', and 'Finish'. A status bar at the bottom indicates 'All data is valid, click Submit to save.' and 'Retrieved 10/13/2007 4:12:51 PM Week: 200742'.

In this complex industry, keeping on top of material and labor requirements is vital.

Vericell Vision has the most highly developed and iron clad production scheduling engine in the industry.

Vericell Vision can help you estimate labor, materials, and internally produced or purchased young plant requirements for your finished crop production with pinpoint accuracy.

Schedule combination containers and all constituents are scheduled automatically. If the constituents originate from a transplant, they are also scheduled.

The Corymb Group

Empowering people to drive business success

# Vericell Vision®

*An integrated business management solution designed for the ornamental horticulture industry*

Transplant scheduling allows for single and multiple transplants. Vericell Vision tracks units required and units consumed.
